

*Lunahii*, formed by Richmond-natives Nick Scott & Wit Waterfield, isn't bound to any particular genre, but rather a blend of them all. By experimenting with different sounds, artists and styles of music, *Lunahii* is both well rounded and unique.

Together, Nick & Wit write, record, produce, mix and master all of their music. On a typical day, you will find them in their Richmond-based recording studio either working on their own music or working with other artists around the Richmond area.

In 2017, with a catalog of close to 1,000 original songs, *Lunahii* decided to form Rosser Records, a Record Label & Music Production Company based in Richmond, Virginia. Currently, *Rosser Records* has 5 signed artists and continues to grow.
